Jack and I decided that it was time for the semiannual review of his global holdings. I assembled a team of strategists, auditors and operations specialists and we started in Miami. From there we visited all of the US companies east of the Mississippi. We spent time evaluating two new energy companies as possible acquisitions. We finished our eastern US swing in New York.

I spoke with Jack via satellite feed. Ingrid was with him and they were very concerned that two young girls were showing signs of first menses. They had no available boys to seed them. The council discussed the available options, but in Ingrid and Rolf's opinion all of the potential male candidates were too close genetically to the girls to be seeded.

They even discussed having Mattie and Josh see these girls, but there was concern that would only cause more genetic compatibility problems later. They needed fresh seed and had no idea of where to turn.

I literally scratched my head. I was a perplexed as they were. Then I thought about Mattie sending the email to the twins. I wondered if they might be a possibility.

Jack looked at me. Mack...what are you thinking?

Well maybe...it is a long shot.

Well spill it...what do you have in mind? Jack asked.

Mattie's two closest friends are twins that live a block from his house. He told them about his adventures with you and all of the things that have happened to him on Seed Island. The twins wanted more and more information. I would have to talk to Mattie....

He is in class right now. I will have him call you when he is free.

We are scheduled to depart from Teterboro, NJ at 7 pm., I told him.

We continued to work on the acquisition analysis. We met at 4 pm to review our final analysis and recommendation. Once we were in agreement, the team made some final changes to the documents. Gunnar, who was doing an internship with me, gathered the documents on a thumb drive. He walked into my office when the phone rang. It was Mattie. I put him up on the screen so Gunnar and I could both talk to him.

I asked Mattie to tell Jack that Gunnar had just sent him an encrypted email with our acquisition recommendations. Mattie said he would tell him and then asked what was up. Jack and Ingrid acted like it is some big deal. What is going on? He asked.

I told him I would explain in a moment. I asked if he had talked or emailed with the twins. He said yeah a lot of emails.

I asked him if they were still real curious about Seed Island?

Yeah...they are beyond curious. They want to move here, Mattie said.

How do you think Bill and Amy, their mother and father, would feel about that? I asked.

That is the wild part...Devin and Jase told them all about Seed Island...I mean everything about Seed Island.

Wow...what did they say? I asked.

They wanted to know all about it. They were really interested in the part about Josh and me seeding Mom. Yesterday I got an email from Devin wanting to know if families are ever invited to move there. I wanted to talk to you before I mentioned it to anyone.

I am glad that you did. Tell Jase to have his Dad email me. I want him to explain to me why they want to move to Seed Island.

Mack don't you know? Mattie asked.

We think we know why they would want to move to the island, but we need to be sure it is for the right reasons. Just ask Bill to email me and we'll take it from there.

How are things with you? I asked.

There is no big news yet...we are still waiting.

I wish I could hug you, give Josh a hug for me...I will talk to you soon. Call me if you need anything.

Good night Mack, Mattie said.

I told Gunnar about the conversation with Jack and Ingrid. I am hoping that the situation with the twins could be a solution to the problem, I said.

Just then my computer sounded the tone for the arrival of new mail. I could not believe my eyes. I had an email from Bill. I opened the email and could not have been more surprised at the contents.

*Mack*

*Devin just got off the phone with Matt. He told me about your request for an email explaining our desire to move to Seed Island. I have been working on an email that I wanted to send you...but it just seemed awkward. Devin, Jase, Amy and I have talked almost non stop about Seed Island. Living there would be a dream come true for us. I asked Matt for your email address about a week ago. He gave it to me and said you were traveling around the world on business. I hated to interrupt your trip, but more importantly was concerned that it would seem weird that we are inviting ourselves. I just didn't know how to open the discussion.*

*I am so relieved that you asked us to explain our interest. When the twins were born Amy and I were overwhelmed. She became terrified about becoming pregnant again. We talked about it a lot and went through counseling. We concluded that given her strong feelings a vasectomy would be the best course of action.*

*About 2 months ago, we decided that we would like to have the vasectomy reversed. I had the surgery but the doctor thinks there is only a remote chance that I will be able to inseminate Amy. We were devastated. Then Devin and Jase told us about Matt, Josh, Sandy and Rick's experiences on Seed Island. The boys asked if there was any way we could join Mattie and Josh. It was like an answer to a prayer.*

*It was intriguing because I just finished my PhD in genetic engineering. The genetics and genomics of Seed Island are fascinating.*

*We have all had physicals and are all in great shape. I have enclosed pictures of the family. The boys insisted that we enclose nude pictures of them for Mattie and Josh. As you will see in the pictures they are still perpetually horny.*

*Let us know what you think.*

*Best Regards,*

*Bill*

Gunnar was reading over my shoulder. He looked at me about half way through the email and said I don't believe this. This is too good to be true!

I opened the photos of the family. They are a great looking bunch. They do look Nordic too. They are tall, blond, fair-skinned, and blue-eyed. They have all of the characteristics of people from Scandinavian countries. Gunnar looked at the boys in the family picture.

My God the boys are beautiful. I thought Matt and Josh were hot...these guys look even better, Gunnar said. I sent Jack a text message telling him that we needed a teleconference as soon as possible. I asked him to see if Rick, Sandy, the boys and Ingrid would be available to join us. What I didn't know is that they were already having dinner with him. I clicked on the satellite conference call connection assuming it would be a while before they would be available.

Then I opened the nude photos of the twins. The boys were posed back to back. Both had erections. I could tell that their young bodies had developed considerably during the last three months.

Gunnar was practically drooling. The twins were not the only ones sporting boners. Gunnar was rubbing his boner through his pants.

Mack they are amazing he said as we went through a few more of the naked pictures. The last one was Devin sucking Jason. There was a caption that they worshiped seed too. I reached up and rubbed Gunnar's erection through his pants. He was rock hard. I was too after looking at the pictures of Devin and Jase.

I unzipped his pants and slid them down along with his boxer briefs. Gunnar's magnificent erection was throbbing in anticipation. My mouth was watering as I licked the precum from the tip. He moaned and ran his fingers through my hair. I started to lick my way around his corona paying attention to the particularly sensitive spots. He shuddered as I found them. I could not wait. I wanted his seed and I took his 7" down my throat until my nose was buried in his pubes. I sucked him while gently massaging his low hanging testicles. Gunnar was very horny and needed to seed me. He began to rapidly face fuck me. In minutes I felt his erection expand and his testicles draw up. I knew he was close and I fingered his rosebud. I drove my finger deep until I was massaging his prostate. He cried out in passion as he gave me his seed. He thrust over and over feeding me rope after rope of his cum. He tasted so sweet. When his climax subsided, I released his softening penis from my mouth.

It was then that I noticed that the satellite call had connected. They were all watching me suck down Gunnar's seed. I noticed that Josh was sucking Mattie and Sandy was masturbating Rick. Bjorn was on his knees sucking Jack's essence.

I decided that this was the perfect time to seed Gunnar. I bent him over the desk and removed the lube from the drawer. I quickly lubed both of us. I had a need to seed. I lined my ultra hard cock up with his rosebud and I thrust to the core. He winced in pain at the assault on his anus. But in moments he was pushing back demanding a hard cock. I quickly found a rhythm and watched Mattie feed his brother a major load of seed. That was enough to send Jack and Rick over the edge. I followed quickly after them. I emptied my seed deep in Gunner's bowels. Gunnar came again all over the desk drawer...that was going to take a lot of furniture polish to clean that up.

Jack asked what was going on, other than the obvious mating, and I told him it was an answer to a prayer. I sent them a copy of the email from Bill. There was a lot of conversation all at once.

Jack got everyone quiet. This is great news. We need to get them here as soon as possible. Mack what are your travel plans?

I land in London in about 4 hours. I have meetings in London the next two day. Then I am scheduled to be in Rome. After Rome, I leave for 4 days in Hong Kong.

I would like for you to get back here as soon as you can. Why don't you send the team on without you and charter another Gulfstream 550 to bring to you back with Bill and his family?

No problem Jack, I will make arrangements for a charter back to the states leaving London this evening. I will stop over long enough to pick up Bill and his family and refuel. We should arrive on Seed Island tomorrow afternoon.

At noon the next day I touched down. Bill, Amy, Devin and Jason were standing there waiting for us to land. As we taxied up to the fixed base operator, I saw Jase and Devin standing there with their parents. I forgot just how gorgeous they were. They spent the night at my house when Josh and Mattie were living with me. Just thinking about the night in the hot tub with the four boys gave me an instant erection. I hugged Devin and Jase as soon as I deplaned and I introduced my self to Amy and Bill.

I could see that Bill was very excited about going from the wet spot and bulge in the front of his khakis. The boys looked great. Their fine white blond hair was blowing in the breeze.

The boys were dressed in matching outfits. They both wore form fitting athletic tee shirts with their swim team logo on it. The swimming over the past few months developed their shoulders and pectoral muscles. Their nipples were prominently displayed and erect. They wore black soccer shorts. As I continued my survey, I noticed that there was still only a dusting of fine white blond hairs on their legs and arms. Devin reached up to comb his hair with his fingers and I saw that he had developed a few under arm hairs. He watched me checking him out and grinned. I went to the washroom to shower and freshen up.

Devin walked in while I was toweling off. His shorts were tented and he walked over to me and kissed me. I put my arms around him and my erection leaked precum on his shorts.

It was hard to believe that a 14 year old was this comfortable with his sexuality. I put my hand in his shorts and found only bare hard young cock that was covered in precum. As I kissed him and continued to explore his hard young manhood I felt him begin to thrust against my arm. I locked the door and sat on the bench pulling down his shorts as I sat down.

I took a moment to admire his erection. His penis stood out from a small patch of light blond pubic hair. He was 5" inches and circumcised. His sexual development was still at an early stage. His immature shaft, while beautiful to look at, was only about 3/4" across. I licked the drop of precum at his tip and then gently took him all the way to his pubes. I love the fresh boy smell. I stroked his hips as I bobbed my head. He began to fuck my face and I could tell the beautiful boy would not last long before his young body demanded release. In moments I was rewarded with his seed. It tasted so fresh and sweet.

I stood and kissed him sharing his own essence with him. He probed my mouth for every bit of his seed. I whispered in his ear that he was marvelous and while I would love to spend the day naked in the locker room with him, I thought we needed to get going.

I got dressed with some difficulty. It was not easy to contain my rampant erection. Devin and I went aboard to join Bill, Amy and Jase. The first officer closed the door and the captain started the engines. The flight attendant checked the cabin while we taxied to the runway.

I explained that this was a chartered jet. I saw Jase playing with his hard penis through his shorts. I apologized that he would have to wait for a little while for release. We ate a light lunch and about an hour later the captain told us he was descending to land.

We looked out the starboard side windows and I pointed out the community and Jack's house. I noticed that there was a huge power yacht in the harbor. Jack was standing by the pool waving at us as we circled the island so that we could land into the wind. The landing gear lowered and locked into place and the pilot slowed our air speed. The flaps were lowered and the pilot banked for his final turn on to the glide path. The plane bounced a bit in the turbulence and then began to settle for the landing. Moments after we streaked past the end of the runway, the pilot dropped her gently on the runway applying the brakes and reversing the engines. When we reached the other end of the runway the pilot taxied up in front of Jack, Rick, Sandy, Ingrid, Matt and Josh. As the hatch was opened there was a rush of warm moist air. Mattie wasted no time and rushed into the cabin and hugged and kissed each of the twins.

I thought you guys would never get here, he said as he lightly fondled Jase. We all deplaned and the adults and kids talked separately. The first officer loaded the luggage onto one of the carts while we continued talking. I shook his hand and he reboarded the plane and closed the hatch. Ingrid called for the twins, but as we looked around they were no where to be seen.

The boys ran for Jack's house. They though briefly about a swim, but decided they wanted more privacy. They ran down the steps to the dock. Josh grabbed the keys and life vests for the jet skis. Mattie was stripping naked and Josh, Devin and Jase quickly followed his lead. They pulled on their life vests leaving their clothes in a pile on the dock.

Both jet skis started at the same moment and drowned out Ingrid's calls to the twins. The boys raced out of the harbor and down the coast line. I put my hand on Ingrid's shoulder and told her it would have to wait. It looks like the boys have some hard matters to take care of.

Mattie and Josh headed for their favorite secluded beach. It had to be one of the most beautiful beaches in the world. It even had a sheltered fresh water lagoon. All of the boys raced to the lagoon. Mattie and Josh dove in and the twins quickly followed. The twins were so hard that they might explode at any moment. As soon as they were in the water Josh took Devin and led him to shallow water. He got on his knees and began to lick the tip of Devin's aching cock. Soon Devin had a stead stream of precum. Josh loved the taste of Devin. Josh deep throated Devin and soon was pounding Josh's face desperate to find release.

Mattie led Jase to shallow water and presented his ass to him. Jase wasted no time and just lined up his rock hard erection with Mattie's rosebud. As Jase started to push Mattie pushed back and soon Jase was riding Mattie. They both heard Devin cry out as he flooded Josh's mouth with his hot seed. Thrust after thrust of seed filled Josh's mouth. Josh stood up and kissed Jase filling his mouth with his own seed.

Mattie heard Jase cry out as he began to flood his ass with his hot seed. Devin and Josh were drowned out by the sound of Jase's loins slapping Mattie's ass. The ass pounding was enough to make Mattie spray his seed in the lagoon.

Devin quickly dropped to his knees and took Josh to the hilt. Josh face fucked Devin as hard as he could. He needed to seed the boy. After only a few moments Josh began to flood Devin with his hot cum.

All of the boys flopped down on the sand exhausted. When they arrived back in the harbor after a wild afternoon of sex on the beach they were exhausted. They were told to shower quickly and get ready for a cook out where they will meet the girls that they are to seed.

More to come...
